WORK EXPERIENCE

Freelance Web Developer
2022 – Present

Since 2022, I've been passionately creating exceptional Front-End web experiences as a freelance developer. My focus on cutting-edge technologies like WordPress, JavaScript, and React has allowed me to partner with a diverse range of clients and small agencies to deliver innovative and engaging user interfaces.

VICON Web Business, Germany | Web Developer
2018 – 2021

I specialized in creating premium websites for the company clients using HTML, CSS, and JavaScript. Additionally, I had expertise in developing responsive themes and templates using Contao CMS and a proven track record in managing website back-ends, including database and server integration.

Anders Björk GmbH, Germany | Web Developer
2017 – 2018

I specialized in creating responsive WordPress themes using technologies such as HTML, CSS, JavaScript, and PHP. With a keen eye for detail, I excelled at monitoring the performance of live WordPress CMS websites, ensuring optimal functionality and user experience.

Parrot Media GmbH, Germany | Junior Web Developer
2013 – 2016

I began my career as a junior frontend web developer, where I gained valuable experience creating websites using HTML and CSS. My focus on WordPress and vanilla JavaScript/jQuery based projects allowed me to develop my skills and deliver high-quality web experiences.
